

Join the New IEEE Computer Society - NC East Section - Seminar Series & Research Groups!

Dear IEEE Members,

We are thrilled to introduce a **new seminar series and research groups** within the **IEEE Computer Society - North Carolina East Section!** These initiatives aim to foster collaboration, knowledge-sharing, and innovation across **engineering, computing, and applied sciences.**

We welcome **faculty, students** (graduate & undergraduate), **researchers, and professionals from academia, and industry.** Your insights will shape the direction of these initiatives, making them more impactful and valuable for all members.

As part of the monthly seminar series, all presenters will receive **IEEE certificates.** Students actively involved in research activities will also be recognized with a **Student Researcher Award.** We're offering mentoring for research, publishing, and career development, along with volunteering opportunities.

Sign Up & Get Involved!
